

# GROWTH - PLAN B

Investment plans Switzerland, Plan No. 942  
 Monthly Report, 01.04.2024

## Investment Goal

The investment is primarily made in Swiss francs and Euros, which are hard currencies. A diverse international spread minimises country risk. The relatively high proportion of equities makes the investment plan particularly suitable for longer investment horizons. As the performance goal is prioritised, a certain degree of value fluctuation is accepted. While there is a heavy weighting towards fixed-interest securities, a small proportion of units is also held in mortgage and fixed deposit securities.
