

GENERALI INDEX SERIE 25

EDITION Q3 2024 (DATA AS OF 30. SEPTEMBER 2024)

DESCRIPTION

This investment plan is broadly diversified globally. It aims for limited value fluctuations coupled with moderate income opportunities. Thanks to the selection of cost-efficient funds, income opportunities are optimised.

The portfolio factsheet is a general representation of your investment plan. The figures and graphics do not represent your individual returns. Data before 1.12.2018 based on backtesting

EXPLANATION

Diversified means a broad distribution across various sectors and regions. This diversification reduces fluctuations in value and hence the risk.

TER The total Expense Ratio shows the annual costs of the individual investment fund. These costs are already priced into the fund performance.

Rebalancing means that the distribution of savings is constantly being corrected, so that it is coordinated with the investment plan. Market fluctuations lead to a deviation from the investment plan. By rebalancing, we even out these deviations.
