

# FORTUNA INVEST – Risk Control 4

**FORTUNA**  
Investment

## Monthly Report – December 2019

### Fund description

**FORTUNA INVEST – Risk Control 4** is an investment fund under Swiss law in the «Other funds for traditional investments» category, and it is **growth-oriented**. The investment goal is primarily to produce optimum total returns.

The sub-fund's investments are actively managed. The aim is to produce the greatest possible return in CHF within a specific risk level. The fund invests mainly in equities and similar securities and other investments permitted under the fund contract.

The aim of the fund is to benefit from rising markets and control risk. The fund can place up to 100% in defensive investments to adapt to changes in the markets.
