## **Make more out of your money**

Our investment managers invest your savings capital in first-class, broadly diversified funds. Thanks to the low costs, you achieve the best possible return. Five years before you retire, your pension capital is moved to particularly safe investments. You don't need to worry about anything.

## **Pay less tax today – and have more money to live on in your old age**

You can deduct your payments into pillar 3a from your taxable income. This means you pay less tax year after year.

## **We will carry on saving for you if you no longer can**

If you are unable to work, we will pay up to CHF 3,000 a year into your pillar 3a, if necessary until your retirement.

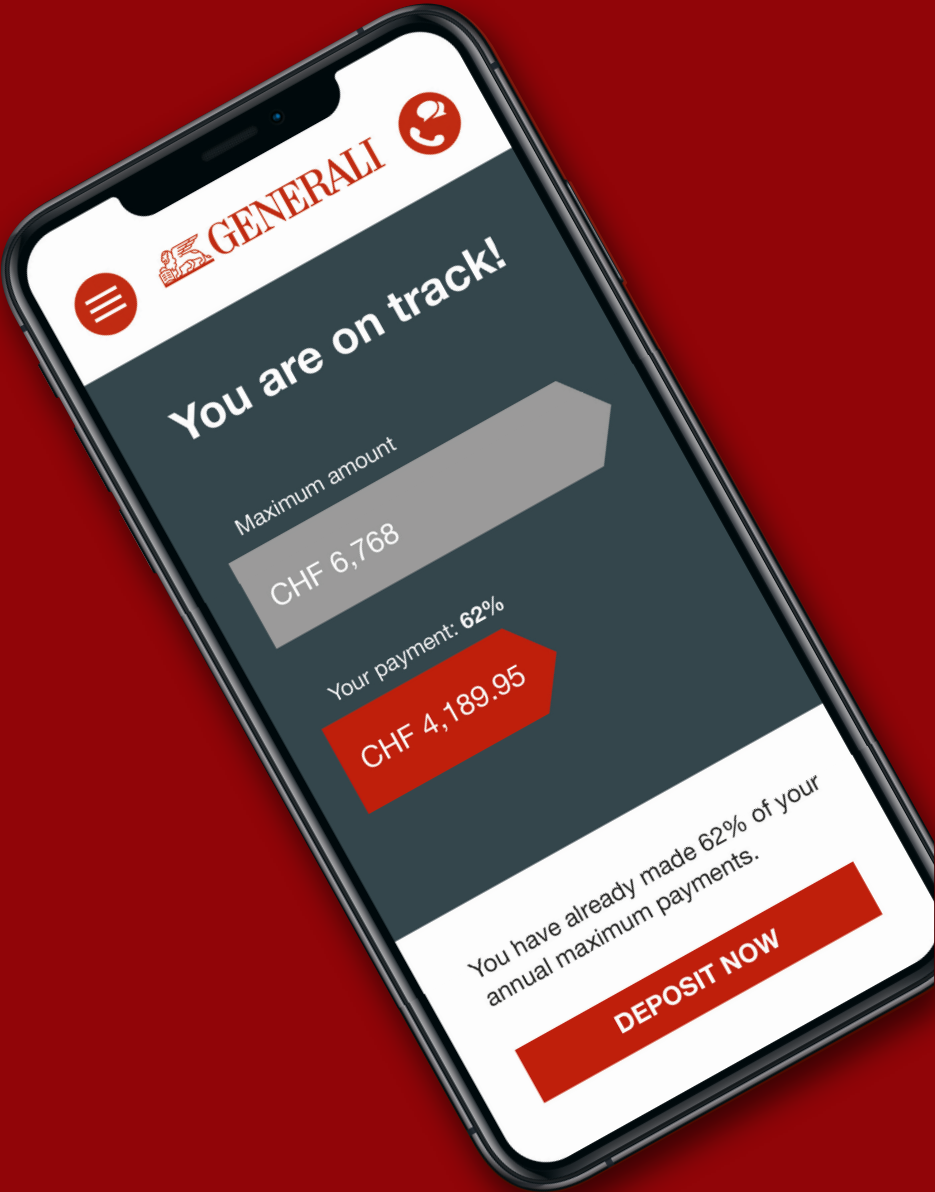

## **Retain your freedom and keep track**

Our digital pillar 3a gives you full control. You can keep an eye on your payments, the growth of your savings capital and the costs you pay at all times.

### **Tip**

Set up a monthly, automatic payment. After all, it's better to pay in a small amount regularly than nothing at all. What's more, you can change the amount at any time.
