

If you would like to insure your belongings without a lot of red tape, the solid protection of CASA Compact household contents insurance is exactly what you need. Simply conclude your flexible insurance online and expand it at any time if needed.

# Compact security made to order

A burst pipe, home fire or break-in – the damage is bad enough. But who will pay for the consequences? Low-cost household contents insurance provides reliable cover when you need it. So you don't have to worry about the financial impact. Additional options round out your cover.

### Solid basic cover for the budget-conscious

You value your personal furnishings. It's good to know that basic cover protects your home against all major risks, including fire, theft and water damage. The insurance also covers damage caused by natural hazards such as storms, lightning strikes or hail.

For even more cover, simply select additional benefits. For example, personal liability, glass breakage, travel or bicycle accidental damage insurance provide tailored protection.

## Transparent cover that's right for you

The insurance can be quickly and easily concluded online. Enter the size of your home in square metres for an optimal level of security. Then select the category of your furnishings and receive an immediate proposal for your individual premium.

If your needs change or you would like to increase your protection, you can adjust your cover at any time. A phone call is all it takes.

# Your benefits ✓ Solid basic cover ✓ Flexible additional cover ✓ Low premiums ✓ Easy online application

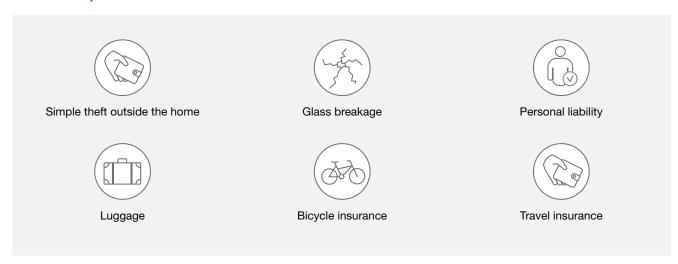

# Reliable cover for your home

# Facts & figures

# What is insured?

The insurance covers your household contents and the costs arising from an insured event. It includes all movable property for private use owned by the policyholder and persons living with him/her in the same household. Household contents also include pets, movable structures (i.e. non-permanent installations such as a greenhouse in the garden), leased or rented objects, professional equipment, personal belongings of visitors and items of property entrusted to the policyholder, equipment and materials for the maintenance and use of the insured building and associated premises.

### Where does the insurance cover apply?

CASA Compact applies within the home, i.e. at the locations listed in the policy. Household contents and costs incurred due to the insured events are also covered outside the location for a limited period of time (12 months).
