

We offer PRISMA Flex household contents insurance so you can enjoy your own four walls without worry. Our comprehensive cover with integrated legal protection is tailored to your needs and can be extended to suit your circumstances, providing you with all-round protection from financial risk.

Play it safe

If your wine cellar is under water or burglars steal your valuable jewellery, you may rapidly incur significant damages. Comprehensive household contents insurance ensures that your belongings are fully covered, allowing you to optimally protect yourself against financial risks in case of a claim.

Reliable cover for discerning customers

You can insure your furnishings under basic insurance. You benefit from comprehensive cover against the financial consequences of fire, burglary, glass breakage and water damage. The insurance also covers damage caused by natural hazards such as storms, lightning strikes or hail.

Numerous supplementary components allow you to tailor your insurance package to your individual needs. Whether you wish to protect your valuables at home or your luggage when travelling, you decide which supplementary cover you would like to conclude. You also have the option of concluding pet insurance, cyber insurance or personal liability insurance.

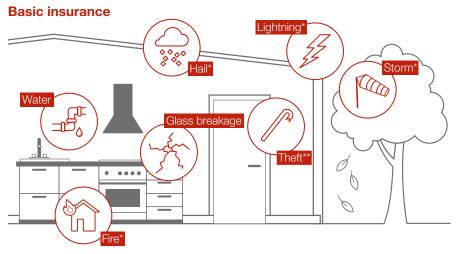

You can easily calculate your insurance sum – based on the number of rooms and type of furnishings, or individually per room.

Have your needs changed during the contract term? No problem. You can flexibly adjust your benefits and insurance sum to your life situation at any time. A phone call is all it takes.

Your benefits
