With Generali's car insurance you can drive with peace of mind in your daily routine and in your free time. And as your insurance needs are as individual as you are, you can select the precise protection that you require.

Good all-round protection

Traffic accidents will happen no matter how carefully you drive. Generali car insurance covers damage to your vehicle, as well as fully covering you as a driver, owner and passenger. Which cover and how much of it you need is for you to decide.

Third-party liability insurance

Third-party liability insurance is mandatory for all motor vehicles. It covers you against damage or costs that you cause with your vehicle.

Accidental damage insurance

You can take out accidental damage insurance in addition to third-party liability insurance. It covers damage to your vehicle. Is full or partial accidental damage cover right for you?

Partial accidental damage insurance covers you against fire damage, theft, glass breakages, martens, vandalism and natural hazards such as landslides, avalanches, snow pressure, storms, hail, inundation, rockfalls and flooding. If you opt for the all-round cover provided by comprehensive accidental damage insurance, you will get collision accidental damage cover as well. That means your car will also be insured against collision damage such as damage resulting from crashes, impacts, overturning and sinking.

Accident cover and other valuable forms of supplementary insurance

Accident insurance ranks alongside third-party liability and accidental damage as important types of cover.

Add it on, and you're protecting not only yourself, but also your passengers, against the financial consequences of accidents of all kinds. When you opt for it, you can choose various benefits, including treatment costs, disability capital, death capital, and daily allowances in and out of hospital.

If you wish, you can add more benefits to your insurance coverage. Supplementary cover for parking damage and extended glass breakage cover make sense in particular for new cars. And perhaps you might find cover for items transported in the vehicle (personal and work items) useful? Or maybe no-claims bonus protection, which guarantees that the first claim per year won't increase your premium level?
