PRESS RELEASE

## Generali drive-in in Worb: The quick and simple solution for hail damage to cars

Storms accompanied by hail – of the kind that occurred on 28 May 2016 in the cantons of Bern and Solothurn – can cause considerable damage to vehicles. On this occasion, Generali responded immediately by offering those of its customers whose vehicles were affected a fast and simple solution: a drive-in in Worb where those insured with Generali could have the damage to their vehicles assessed and could get advice on the repairs required.

- Following the severe storm that took place in the cantons of Bern and Solothurn, Generali has opened a drive-in to provide a fast service for hail-damaged vehicles.
- The drive-in in Worb is open daily from 20 to 24 June 2016.
- Assessing the damage takes less than half an hour. Those affected receive a repair recommendation or compensation offer.
- The experts dealing with them always select the best, most environmentally friendly and cost-effective way of remedying the damage.

**Generali promises that each of its insurance customers will be notified of the cost of the damage to their vehicle before leaving the drive-in.** Customers can of course also opt to have the cost of the damage paid out. In this case they will receive a compensation offer, and the payment instructions will be issued immediately at the drive-in.

### Drive-in appointment: sign up online within the space of a few minutes

Those affected are requested to sign up in advance for an appointment at the drive-in. Customers can arrange a date and time for an appointment fast and simply on the Generali website at [generalich.ch/hail](http://generalich.ch/hail) or by calling 0800 82 84 86. The customer will receive immediate confirmation by e-mail along with directions to the drive-in.

**It is important to arrange an appointment at the drive-in in advance.** Only if they do so can customers be guaranteed prompt and optimal service. Generali offers its customers snacks and refreshments while the damage to their car is being assessed.

### ABOUT GENERALI
