

GROWTH

Investment plans Switzerland, Plan No. 290
Monthly Report, 01.02.2024

Investment Goal

A growth-oriented investment policy is pursued using the Swiss franc as reference currency. Swiss blue chips are heavily weighted in the portfolio. Because periodic fluctuations in value can occur, the investment plan is particularly suitable for longer investment horizons. Thanks to the distribution of investments across a variety of countries, risk can be limited.

This product flyer and the figures and explanations contained therein are for general information purposes only and do not contain an individual recommendation nor personal investment advice. To establish your specific investment requirements and preferred levels of risk, we advise you to consult your advisor.

The performance is calculated on the basis on a unit-linked insurance financed through a single premium payment. Regular premiums result in other performance figures because of the different timing of the investment. Historic performance data are furthermore no guarantee of future returns. The future performance of investments cannot be deduced from previous market development, i.e. the value of an investment may fall as well as rise. The prices used to calculate performance correspond to the inventory values published by the fund management companies at the beginning of the month, plus or less any commissions.

Generali Insurances of Persons Ltd. is unable to guarantee (explicitly nor implicitly) that the published information and opinions are accurate, complete and up to date. Only the sales prospectuses for the individual funds and the General Policy Conditions are binding.
